Category	What it covers
Marketing	Promotions, offers, re-engagement — any message with promotional intent. Highest rate, no volume discount.
Utility	Transactional updates — order status, shipping, appointment reminders. Free if sent within an open service window.
Authentication	OTPs and login verification codes. Authentication-International applies when the recipient's country differs from your registered WABA country, at a higher rate.
Service	Free-form replies within a 24-hour customer-initiated window. Currently free.

TWO CHANGES WORTH WATCHING

Service messages become chargeable from October 1, 2026

Meta will begin charging for Service messages (currently free) starting October 1, 2026 — the same month your launch is planned. Exact rates haven't been published yet; Meta has committed to announcing them by September 1, 2026. Worth checking back closer to launch.

Service messages (free-form replies within the 24-hour customer window) are currently free (n/a) in all markets. "Rest of" regions and "Other" apply to markets not individually listed by Meta. Rates set by Meta and revised quarterly — confirm current rates at business.whatsapp.com before quoting a client. © HelloBotz · Verified Meta Business Partner
